General Research Grants/ Subventions générales de recherche

Block awards to Canadian universities and other research institutions to cover costs of certain requirements of their faculty, such as small research expenses and conference travel.

Subventions globales offertes aux universités canadiennes et à d'autres établissements de recherche, destinées à couvrir certains besoins de leurs professeurs. Il peut s'agir, par exemple, de menus frais de recherche et de voyage.

AU COEUR DU PROCESSUS D'OCTROI DES SUBVENTIONS DU CRSH

La présente publication énumère les nouvelles subventions accordées par le Conseil de recherches en sciences humaines au cours de l'année financière 1995-1996.

Le CRSH attribue ses subventions suivant un processus de sélection concurrentiel et indépendant, faisant appel à des comités d'experts qui évaluent les propositions de recherche et recommandent les projets à financer. L'examen par les pairs est à la base d'un système juste et efficace grâce auquel seules les meilleures propositions reçoivent un appui financier du CRSH.

Chaque année, les agents des programmes du CRSH recourent à près de 7 000 chercheurs du Canada et de l'étranger pour rédiger des évaluations de chacune des demandes présentées. Leurs évaluations sont soumises aux comités de sélection pour les aider à décider quelles demandes méritent d'être subventionnées.

Les évaluateurs et les membres des comités de sélection du CRSH sont des chercheurs actifs qui ont fait leurs preuves dans leur discipline ou domaine et qui sont au fait de la recherche en général.

Plus de 130 chercheurs font partie de l'un ou l'autre des 19 comités chargés d'évaluer les demandes de subventions ordinaires et stratégiques présentées aux concours annuels nationaux du CRSH.

Cette année, les comités de sélection ont examiné un total de 1 726 demandes de subventions de recherche et de subventions stratégiques provenant de chercheurs d'universités canadiennes. Parmi celles-ci, seulement une sur trois (568) a obtenu un appui financier. Comme dans les années passées, à cause de contraintes budgétaires, le CRSH a été dans l'impossibilité d'appuyer de nombreux projets méritoires qui ont été recommandés par les comités de sélection.

Les demandes de bourses doctorales et postdoctorales du CRSH sont également évaluées dans le cadre de concours annuels nationaux, de sorte que seulement les étudiants les plus prometteurs et les plus doués reçoivent l'appui du Conseil.

Cette année, 3 235 étudiants canadiens de troisième cycle ont fait une demande de bourse de doctorat au CRSH. Parmi ceux-ci, moins d'un sur six (553) ont obtenu une bourse. Un taux de réussite semblable a été observé chez les candidats aux bourses postdoctorales : 130 des 689 candidats au concours de 1995-1996 ont obtenu une bourse postdoctorale — une distinction prestigieuse pour les nouveaux chercheurs du Canada qui sont au début de leur carrière.

HOW SSHRC AWARDS ITS GRANTS

This publication lists new awards granted by the Social Sciences and Humanities Research Council (SSHRC) during the 1995-96 fiscal year.

SSHRC grants are awarded through a competitive and independent adjudication process in which committees of scholarly experts evaluate research proposals and recommend which projects Council should fund. The peer review process forms the cornerstone of a fair and effective system for ensuring that only the best research proposals receive SSHRC funding.

Each year, SSHRC program officers approach close to 7000 researchers from Canada and other countries around the world to provide written evaluations of individual proposals. Their assessments are then submitted to the selection committees to assist them in determining which proposals merit funding.

SSHRC adjudicators and assessors are active researchers with demonstrated experience in their own discipline or area of specialization and solid knowledge of research activity as a whole.

More than 130 scholars meet every year to sit on one of 19 standard and strategic research grant selection committees to evaluate applications submitted in the annual national competitions for SSHRC funding.

This year's selection committees reviewed a total of 1,726 research and strategic grant applications from researchers at Canadian universities. Of those, only one in three (i.e. 568) were awarded funding. As in previous years, owing to budgeting constraints, SSHRC was unable to support a number of meritorious projects recommended by the selection committees.

Applications for SSHRC doctoral and postdoctoral fellowships are similarly adjudicated through annual national competitions so that only the most promising and accomplished graduate students receive Council support.

This year 3,235 Canadian graduates applied for a SSHRC doctoral fellowship. Of those, less than one in six (i.e. 553) were granted an award. A similar success rate applied to postdoctoral candidates: 130 of the 689 applicants in the 1995-96 competition were granted a postdoctoral fellowship — a prestigious award which assists Canada's newest scholars at the beginning of their research careers.

QUEEN'S FELLOWSHIP

BOURSE DE LA REINE

Below is the name and university of the winner of the 1995-96 Queen's Fellowship. This award is granted annually to an outstanding SSHRC doctoral fellowship candidate undertaking a program of Canadian studies at a Canadian university. The Queen's Fellow receives a regular SSHRC doctoral fellowship (\$14,436) plus a supplement to pay for his or her tuition and travel for research purposes.

Ci-dessous, figurent le nom et l'université du boursier de la Reine 1995-1996. Cette bourse est accordée chaque année à un candidat exceptionnel de bourse de doctorat qui compte entreprendre un programme d'études canadiennes dans une université canadienne. Outre la bourse de doctorat du CRSH (14 436 \$), les boursiers de la Reine reçoivent des indemnités pour couvrir les frais de scolarité et de déplacement à des fins de recherche.

Frédérick Têtu, McGill, Political Philosophy

AU COEUR DU PROCESSUS D'OCTROI DES SUBVENTIONS DU CRSH

La présente publication énumère les nouvelles subventions accordées par le Conseil de recherches en sciences humaines au cours de l'année financière 1996-1997.

Le CRSH attribue ses subventions selon un processus de sélection indépendant et très concurrentiel, faisant appel à des comités d'experts qui évaluent les propositions de recherche et recommandent les projets à financer. L'examen par les pairs est à la base d'un système juste et efficace grâce auquel seules les meilleures propositions reçoivent un appui financier du CRSH.

Chaque année, les agents des programmes du CRSH recourent à près de 7 000 chercheurs du Canada et de l'étranger pour rédiger des évaluations de chacune des demandes de subventions présentées. Leurs évaluations sont soumises aux comités de sélection pour les aider à décider quelles demandes méritent d'être subventionnées.

Les évaluateurs et les membres des comités de sélection du CRSH sont des chercheurs actifs qui ont fait leurs preuves dans leur discipline ou domaine et qui sont au fait de la recherche en général.

Plus de 135 chercheurs font partie de l'un ou l'autre des 20 comités chargés d'évaluer les demandes de subventions ordinaires et stratégiques présentées aux concours annuels nationaux du CRSH.

Cette année, les comités de sélection ont examiné un total de 1 817 demandes de subventions de recherche et de subventions stratégiques provenant de chercheurs d'universités canadiennes. Parmi celles-ci, seulement une sur trois (545) a obtenu un appui financier. Comme dans les années passées, à cause de contraintes budgétaires, le CRSH a été dans l'impossibilité d'appuyer de nombreux projets méritoires qui ont été recommandés par les comités de sélection.

Les demandes de bourses doctorales et postdoctorales du CRSH sont également évaluées dans le cadre de concours annuels nationaux, de sorte que seulement les étudiants les plus prometteurs et les plus doués reçoivent l'appui du Conseil.

Cette année, 3 430 étudiants canadiens de troisième cycle ont fait une demande de bourse de doctorat au CRSH. Parmi ceux-ci, moins d'un sur six (558) ont obtenu une bourse. Un total de 536 demandes de bourses postdoctorales ont été évaluées dans le concours de 1996-1997, parmi lesquelles une sur cinq (114) ont obtenu une bourse postdoctorale — une distinction prestigieuse pour les nouveaux chercheurs du Canada qui sont au début de leur carrière.

HOW SSHRC AWARDS ITS GRANTS

This publication lists new awards granted by the Social Sciences and Humanities Research Council during the 1996-97 fiscal year.

SSHRC grants are awarded through an independent and highly competitive adjudication process in which committees of scholarly experts evaluate research proposals and recommend which projects Council should fund. The peer review process forms the cornerstone of a fair and effective system for ensuring that only the best research proposals receive SSHRC funding.

Each year, SSHRC program officers approach close to 7000 researchers from Canada and other countries around the world to provide written evaluations of individual grant proposals. Their assessments are then submitted to the selection committees to assist them in determining which proposals merit funding.

SSHRC adjudicators and assessors are active researchers with demonstrated experience in their own discipline or area of specialization and solid knowledge of research activity as a whole.

More than 135 scholars meet every year to sit on one of 20 standard and strategic research grant selection committees to evaluate applications submitted in the annual national competitions for SSHRC funding.

This year's selection committees reviewed a total of 1,817 research and strategic grant applications from researchers at Canadian universities. Of those, only one in three (i.e. 545) were awarded funding. As in previous years, owing to budgeting constraints, SSHRC was unable to support a number of meritorious projects recommended by the selection committees.

Applications for SSHRC doctoral and postdoctoral fellowships are similarly adjudicated through annual national competitions so that only the most promising and accomplished graduate students receive Council support.

This year 3,430 Canadian graduates applied for a SSHRC doctoral fellowship. Of those, less than one in six (i.e. 558) were granted an award.

A total of 536 applications for postdoctoral fellowships were reviewed in the 1996-97 competition. Of those, one in five (i.e. 114) were granted a postdoctoral fellowship — a prestigious award which assists Canada's newest scholars at the beginning of their research careers.

WILLIAM E. TAYLOR FELLOWSHIP

BOURSE WILLIAM E.-TAYLOR

Below is the name, university and discipline of the winner of the 1996-97 William E. Taylor Fellowship. This award (established in memory of William E. Taylor, SSHRC president from 1983-1988) is granted annually to the most outstanding candidate in the national doctoral fellowships competition. In addition to the \$14,436 doctoral award, the William E. Taylor Fellow receives a \$5,000 stipend plus allowances to cover tuition fees, travel to the university where he or she will study, and travel for research purposes. The 1996-97 competition marks the first time this award has been granted.

Ci-dessous, figurent le nom, l'université et la discipline du boursier William-E.-Taylor 1996-1997. Créé à la mémoire de William E. Taylor, président du CRSH de 1983 à 1988, cette bourse est accordée annuellement au meilleur candidat du concours national des bourses de doctorat du CRSH. Le boursier reçoit 5 000 \$ en plus de la bourse de doctorat habituelle de 14 436 \$, ainsi qu'une indemnité pour couvrir les frais de scolarité, de déplacement vers le lieu principal d'utilisation de la bourse et de déplacement à des fins de recherche. Cette bourse a été accordée pour la première fois dans le cadre du concours 1996-1997.

QUEEN'S FELLOWSHIP

BOURSE DE LA REINE

Below is the name, university and discipline of the winner of the 1996-97 Queen's Fellowship. This award is granted annually to the top SSHRC doctoral fellowship candidate embarking on a program of Canadian studies at a Canadian university. The Queen's Fellow receives a regular SSHRC doctoral fellowship (\$14,436) plus a supplement to pay for his or her tuition and travel for research purposes.

Ci-dessous, figurent le nom, l'université et la discipline du boursier de la Reine 1996-1997. Cette bourse est accordée chaque année au meilleur candidat exceptionnel des bourses de doctorat qui compte entreprendre un programme d'études canadiennes dans une université canadienne. Outre la bourse de doctorat du CRSH (14 436 \$), les boursiers de la Reine reçoivent une indemnité pour couvrir les frais de scolarité et de déplacement à des fins de recherche.

AID TO RESEARCH
AND TRANSFER JOURNALS

AIDE AUX REVUES
DE RECHERCHE ET DE TRANSFERT

The following constitutes the final award amounts granted to research and transfer journals for the three-year period beginning in 1995-96 and ending in 1997-98. (This replaces the "preliminary results" list in SSHRC's Grants and Fellowships Awarded 1995-96 published in July 1996.) The list below gives the journal's title and the total grants awarded. The "T" designation under General Support Grants indicates journals which received a one-year termination grant; all other awards under that heading are for three years.

Les renseignements qui suivent constituent les sommes finales accordées aux revues de recherche et de transfert pour la période triennale commençant en 1995-1996 et se terminant en 1997-1998. (Ils remplacent les «résultats préliminaires» publiés en juillet 1996) dans Subventions et bourses du CRSH accordées en 1995-1996.) Le "T" dans les Subventions générales indique les revues qui ont reçu une subvention terminale d'un an; toutes les autres subventions sous cette rubrique sont versées pour trois ans.
